MEMORANDUM FOR:

[redacted]  
Executive Development Staff

STAT

FROM:

J. Kenneth McDonald  
Chief, DCI History Staff

SUBJECT:

History Staff Paper, "CIA and Congressional Oversight"

STAT

1. I'll attach a copy of our paper on "CIA and Congressional Oversight, 1947-1977," which David Gries suggested would be useful to circulate to members of the Executive Development Program's seminar on CIA and Congress.

2. As we discussed, this paper is based on a prospectus that [redacted] prepared for a proposed History Staff monograph on this topic. [redacted] John McMahon vetoed the monographic study in 1983, but I revised the prospectus last year for David Gries's use when he became Director of Congressional Affairs. While it contains no classified or sensitive information, we've never put it through any review process for circulation outside of CIA.

STAT

3. If you find the paper useful, I would be glad to add a couple of pages to bring the account into the 1980s.

J. Kenneth McDonald
